# Our Philosophy

At On Site Projects Ltd., we provide a safe work environment while delivering services with a production-based attitude, which ensures that our clients know that they have received the highest quality of service. We thoroughly plan all stages of every project with an emphasis on productivity and results, while never compromising safety standards.

## Our History

On Site Projects Ltd. has been delivering construction and maintenance services since 2008. We believe in a cost efficient management strategy from preliminary planning to turn key completions in order to help our clients maximize their project investment.

A vested interest in our clients means that we treat the projects we acquire as if they are our own. We achieve this by paying attention to details and managing time with as little risk as possible.

## What Sets Us Apart

Our staff love what they do. They are inspired to improve and build off of each other to continually optimize project results .

It has been said that...  
“You are only as good as your last job”

With this in mind, we hold every project to the highest quality and safety standards.

You are not just a client to us. Our goal is to understand your business needs and align our service levels to meet your expectations throughout every step of your journey.

## Our Services

- Integrity

# About Us

Our team consists of a knowledgeable group of experts which greatly strengthens the core of our company .

Projects are overseen by a team with many years of combined industrial experience.

As a company , we are committed to our employees and we believe in development from within. We provide cross training for our employees which, in turn, further develops their skills and deepens their commitment to our organization .

Our team of experts collaborate at every stage of a project allowing us to adapt to every detail of our client 's needs while minimizing costs and mitigating downtime.

We are innovative, adaptable , and resilient. Our proactive approach to project management allows us to provide highly reliable, fully integrated services to our clients .

## Our Commitment

**1**

### CUSTOMIZED STRATEGY

We build a team around our client's needs and we invest time in getting to know you as a client and understanding your needs. This ensures that the team we provide is a perfect match to your corporate culture and values.

**2**

### COMPETITIVE EDGE

Our services are comparable to that of larger companies; however, we have lower overhead costs and we offer a personalized approach to satisfying our client's needs and expectations.

From senior management to field staff, our company is set-up in a way that eliminates red tape and enables timely decision making.

**3**

### LONGTERM PARTNERSHIPS

Our commitment is to create true long-term partnerships.

We have a steady flow of repeat business which has taught us that your success is our success.

## 100% Commitment

*We provide the best level of service and support that you would expect from a business partner. As such, we are committed to treating your clients as our own because we care about your company's relationships and reputation*

## SAFETY

### **COR Certified #20180720-7256**

Through the Alberta Construction Safety Association for developing and implementing an Occupational Health and Safety program. We also received recognition for achieving and exceeding the industry standards through an independent evaluation of our HSE program.

### **NCSO & HSA Certifications**

Our safety officers possess strong construction-related health & safety management skills and principles, which are in line with the National Construction Safety Officer (NCSO) and Health & Safety Administrator (HSA) certifications.

### **Safety Focus**

On Site Projects Ltd. is focused on ensuring a safe environment and striving to achieve zero harm in all of our projects.

## QUALITY CONTROL

We are a shop and field run company that is continually growing with the industry in order to meet and exceed jurisdictional, client and code requirements. Our Quality Control Program is registered under the Alberta Boiler Safety Association (AQP-21430), the Technical Safety Authority of Saskatchewan (0668-0001) and Technical Safety British Columbia 'A' Contractor License (LBP0209786)

On Site Projects Ltd. is also registered to test and certify welders (AOQP-7309) through the Alberta Boiler Safety Association. Furthermore, we are a Division 2 certified company through the Canadian Welding Bureau.

OSP believes in relationships and relationships can only be built on quality foundations. Quality is a pillar of our business.

## Certifications & Member-

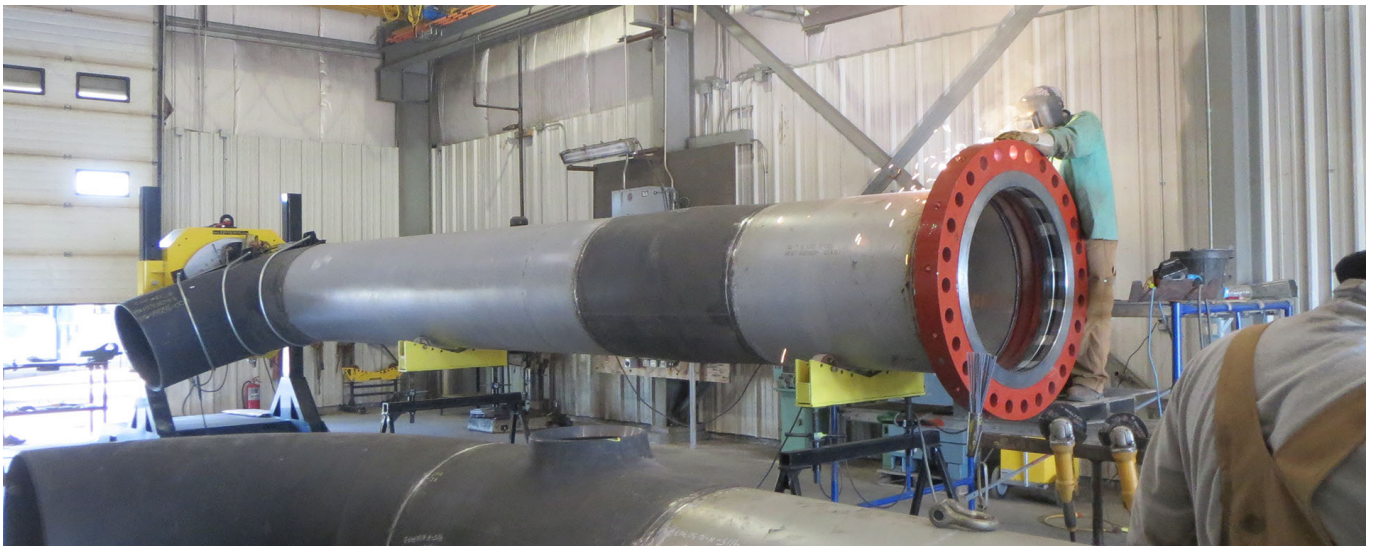

# Pipe and Steel Fabrication

Our fabrication facility is centrally located in Nisku Alberta. At OSP we have software which enables us to track every item throughout the entire fabrication process. We can keep the client up to the minute with accurate reporting of the production and quality of the product being produced.

We can fabricate from ½" to 42" pipe spools in our facility. We can complete repair and alterations on vessels and tanks up to 16' Diameter in doors. Our facility also contains 15 tons of over head cranes.

Our fabrication team is highly experienced and is a highly efficient group. Safety and Quality are held in the highest of regards at our facility, not only do our crews want to be productive they strive for perfection in both Safety and Quality. Our Team is ready to complete any fabrication or assembly project you have.
